

# Luis Cornejo

Florissant, MO

-Email me on Indeed: <http://www.indeed.com/r/Luis-Cornejo/df00246fbfe5e1e5>

A highly motivated technician with excellent computer skills. Developed detailed organizational skills. The ability to define problems and create multiple solutions. Over four years of customer service experience. Great written, verbal, and leadership skills.

Willing to relocate: Anywhere

## Work Experience

---

### **Electrical Engineering Technician/manufacturer**

Emerson

July 2019 to Present

- Reading through schematics verifying parts
- Assembling control systems and power panels from authorized prints
- Quality control on completed projects
- Verifying others work is identical to schematics
- Apply Correct signage identifying internal components voltages / amperage
- Prepping enclosures for future use

### **Store Manager**

Vinyl Fun

December 2017 to July 2019

- I was in charge of taking inventory and ordering merchandise
- I was in charge of the day to day operations in the store
- Over seeing employees work
- Opening and closing stores

### **Wireman/electrical Technician**

Control Tech Automation

September 2014 to October 2017

- Reviewing Bill of Materials and order of layout to ensure all parts are available for assembly
- Reviewing wire schematics to approve wire type and size according to job order
- Cross referencing of layouts and devices to ensure correct positioning of devices
- Wiring panels accordingly to proper voltage and wire ways
- Going over checklists repeatedly so products are wired to customer and CTA manufacturing standards.
- Inspecting completed projects thoroughly before power is applied for final inspection
- I used software to design identification tags for individual devices as well as units and enclosures
- I was assigned to applying all safety material to its corresponding job, including designated UL safety tags and safety paperwork
- Verifying that all FLA's were exact according to the wiring schematics was very crucial in order for my wireman to their job efficiently
- I customize and designed control circuits and stations with AutoCAD
- Price quoting and customer relations

- Creating wire schematics four manufacturer builds and customer prints

### **Line Cook**

Outback Steak House

November 2013 to August 2014

- Open the restaurant every morning
- Do all food prep and portioning for the day
- Work 3 line positions throughout lunch until a second cook would arrive
- Work 2 line positions through early dinner
- Clean and restock back of house

### **Welder/laborer**

Railworks Track service

March 2010 to October 2013

- Accurately spaced and laid railroad ties
- Plate the ties and drive a spike into them to ensure their placement
- Anchor rail to the ties
- Distress the rail by cutting a section out and heating it up until it reached the desired position, then weld the rails together

### **Shift Leader**

Taco Bell America

July 2009 to February 2010

- Organized product and put it away
- Maintained inventory on all products
- Helped all stations meet their needs to ensure the most efficient productivity
- Cleaning and organizing restaurant constantly for maximum performance

### **Operator**

Tubular Steel

January 2008 to June 2009

- Operated a miter saw and hem saw
- Located steel throughout the warehouse and marked it to verify its future location
- Determined the yield and tensile of the product by measuring it with a micrometer
- Cut the steel to the given length specified on the order sheet
- Marked finished product with shipping and receiving details and banded material together for further shipping purpose

## **Education**

---

### **Associate's degree in Electrical Engineering Technology**

ITT Technical Institute - Earth City, MO

December 2012 to 2015

## **Skills**

---

- Quality control

- Schematics
- Food preparation
- Store management
- Cleaning
- Electrical engineering
- Electrical experience
- Assembly
- Warehouse experience
- Shift management
- Cooking
- Micrometer
- Organizational skills
- AutoCAD
- Driving
- Shipping & receiving
- Welding
- Customer service
- Manufacturing
- Leadership
- Computer skills
